AWS	Jira, Confluence	Presenting demo's

---

## PROFESSIONAL EXPERIENCE

### RMDY - Mobile Application Developer Intern

Apr 2022 - Jun 2022

At RMDY, I built a cross-platform mobile app using Flutter to track pilots participating in endurance races using bluetooth low energy beacons. Users can access a live feed of the race and view the ranking,

### Deloitte - Specialist (Full stack developer)

Sep 2022 - Present

#### City of Ghent - Remote identification

A web-app where citizens can remotely confirm their identity to agents leveraging CSAM & ItsMe.

#### Brussels Fiscalité - Digital signage

A cloud solution to install kiosks to help citizens and screens to aid internal communication for employees.

#### SLRB - Appinest

A mobile app that simplifies the life of tenants living in social housing. Request repairs, internal communication, pay outstanding rent and more.

#### Katholieke Hogeschool Vives

An internship-management-platform where teachers can manage organizations, track student internships, upload documents, get feedback, and sign contracts.
